Participant Questionnaire

Once participant data was collected, we created potential matches for workers on crowdflower to evaluate in our HITS:

Rate how compatible you think these people are

Instructions ▾

Overview

Below we will display a pair of people and some information about them. Please read and compare their information and then assign a number as to how compatible you think they are (10 being most compatible and 1 being least compatible). Then give us a quick sentence as to why you believe they are compatible or not or what factor most affected your rating. Please take you time reviewing the information.

There are TEST questions that will tell you what to enter to ensure you are paying attention. Do not enter your own opinion for these test questions.

Thank You!

Thank you very much for your work!
